Summary

Lead product designer with 14 years of product design experience, making AI products approachable for people who aren't experts. I took an AI-powered consumer app from rebuild to launch in under six months as the only designer, working directly with the CEO and engineers, and it now reaches users through over 1,500 clinics. I own the work end to end, from multi-step flows and the design system to visual language, and I prototype in Claude and Figma.

Core Strengths

- 0-to-1 product design with broad, ambiguous scope: two products from blank page to launch
- AI experience design: silent adaptive personalization; consent, disclosure, preview, and revocation for AI that uses personal data
- Approachable design for non-experts: password-free login, one or two actions per screen, non-punitive feedback
- Multi-channel journeys: end users at home, professionals in person, and the business that pays
- Complex multi-step flows: automation builders, enrollment, upsell, and billing experiences
- Design systems and visual language: variable-driven component libraries; brand managed and extended
- AI-native prototyping: working prototypes in Claude Code and Figma Make, shared early with founders and engineers
- Building a design function: hiring, critique, and coaching designers
- Front end: React, Next.js, TypeScript, Tailwind CSS. Tools: Figma, Figma Make, Claude Code, Linear

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Lead design for Lace Pro, an AI-powered training app on iOS, Android, and desktop, reaching users through over 1,500 clinics. Sole designer until June 2025; now alongside a second product designer.
- Led the 0-to-1 rebuild of a 20-year-old product into a modern cross-platform app, strategy through launch in under 6 months; designed Tinnitus Pro 0-to-1 in under 4 months.
- Designed for older, low-tech-confidence users: phone-number login with no password, one or two buttons per screen, and non-punitive feedback.
- Designed the product experience around production AI: an adaptive engine that silently picks each user's next lesson, and a voice-cloning system with invite, disclosure, preview, and revocation.
- Designed enrollment that happens in person: the provider enters a name and phone number and the user installs the app before leaving. Tested three billing models and landed on one that lets providers prescribe unlimited access without patient billing concerns during the exam.
- Built a working ROI calculator prototype in code with Claude from the CEO's spec, iterated with him and sales, and handed it to a developer for production.
- Built a design system from scratch: several hundred components across mobile and desktop, variable-driven for theming and accessibility. Managed and extended the brand since the agency handoff.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and mentored a 5-person team of product designers, researchers, and content designers supporting one of the largest email marketing platforms in the world.
- Guided the team through in-product upsell flows that moved customers onto higher plans.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Designed the Visual Workflow Builder, turning multi-step automation rules into a map people could read, rolled out beside the legacy builder with opt-in and support-assisted migration.
- Grew the design team from 2 to 4 as principal designer and manager, running critique and hiring directly.
- Established story mapping, structured user testing, and design review processes that made ambiguous, data-rich workflow problems tractable.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
