Summary

Player-coach design leader with 14 years of product design experience and about five years managing a team of designers, researchers, and content designers. I lead design for an FDA Class II product used in nearly 1,500 audiology clinics, small practices run by busy clinicians, and I still do the hard design work myself. I make design standards explicit, coach designers toward strategic influence, and build design systems that AI tools can build from, prototyping in code with Claude Code.

Core Strengths

- Player-coach leadership: leading a team of five while carrying hard design problems myself
- Coaching designers from execution toward strategic influence; development conversations and performance reviews
- Making design standards explicit: critique format, review rhythm, hiring loop, and leveling
- Design systems built for AI tools: token-driven components and documentation so prototypes build from real parts
- AI fluency with judgment about where it helps and where its output shouldn't ship
- Small clinical practices as customers: clinician-operators, workflows inside a real visit
- Two-sided products: clinicians who enroll and patients who keep showing up; proof-of-concept marketplace designs
- Research with users: interviews, usability testing, and working prototypes iterated with clinicians
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · Health AI Platform / FDA Class II

- Lead design for Lace Pro, an FDA Class II product used in nearly 1,500 audiology clinics: a patient app on iOS, Android, and desktop plus a provider portal for clinicians. Sole designer until June 2025; now working alongside a second product designer.
- Designed enrollment to fit inside a standard clinic visit: the provider enters a name and phone number, the patient gets a text and installs the app in the room, and login is phone number only, with no password.
- Designed for both sides of the product: clinicians who prescribe and patients who train. Adherence runs 38% average and 61% at top clinics, against a sub-30% benchmark.
- Built the design system from scratch: several hundred components across mobile and desktop, with color, type, and sizing driven by tokens so code and AI tools build from real components.
- Built an AI production workflow for a family of about 20 sales case studies: writers deliver copy to a spec and an agent fits it into a coded template I designed; 7 done. Kept AI out of therapy content after its drafts proved factually unreliable.
- Partnered with product through three billing models in the provider portal; clinic-wide licensing took cost out of enrollment.
- Cut daily training from 20 to 15 minutes by removing interaction points and stops. Designed Tinnitus Pro 0-to-1 in under 4 months. Hearing Technology Innovator Award three years running, 2024 to 2026.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Managed a 5-person distributed team of product designers, researchers, and content designers on one of the largest email marketing platforms in the world, owning feedback, career growth, and performance.
- Took over a completely new team after a post-acquisition reorg and kept 1:1s, critique, and team time steady so the team had stability while the org changed.
- Guided the team through in-product upsell flows and designed against daily active use as a core metric.
- Partnered with product and engineering on roadmap strategy, using research and experimentation to shape direction.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Grew from UX Designer to Head of UX; became a formal manager in 2019 and hired directly to grow the team, then carried it intact through the Constant Contact acquisition.
- Wrote down the team's design standard: critique format, review rhythm, and hiring loop, and held it through the acquisition.
- Brought in an intern with no product experience, paired her with a product manager, and grew her to owning a net-new product that extended the design system; she now leads growth design at Noom.
- Created proof-of-concept designs for marketplace features, and designed the Visual Workflow Builder for marketing automation.
- Established story mapping, structured user testing, and design review processes for complex, data-rich workflows.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
