## Summary

Design lead with 14 years of product design experience, most of it in marketing software: seven years on SharpSpring's CRM and marketing automation platform, then Constant Contact, one of the largest email marketing platforms in the world. I own a product's design direction end to end, design for professionals doing multi-step work, and run critique that raises the standard rather than dictating it. I work AI-native: I prototype in code with Claude Code, direct agents to produce finished work to a standard I set, and know where AI output shouldn't ship.

## Core Strengths

- Email marketing, marketing automation, and CRM: SharpSpring and Constant Contact
- Owning a product's design direction and holding the whole experience to one bar
- Designing for surfaces I don't render: email clients, and agents producing work to my standard
- AI-native workflow: coded prototypes in Claude Code, agent pipelines, judgment kept with people
- Complex B2B workflows: automation builders, pipelines, reporting, clinical workflows
- Critique and mentoring: ran crit before formal authority; an intern I hired now leads growth design at Noom
- Design from firsthand customer time: formal usability studies, interviews, prototypes iterated with users
- Coherence across teams: design systems at SharpSpring and Neurotone, built to flex without forking
- Tools: Figma, Claude Code, HubSpot, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

## Experience

### Lead Product Designer

*Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform*

- Own the design direction for Lace Pro, used in nearly 1,500 audiology clinics, across a patient app on iOS, Android, and desktop, a provider portal, and the marketing that sells it. Sole designer until June 2025; now alongside a second product designer.
- Setting up monthly partner emails (patient engagement, adherence, leaderboards) that Claude builds directly in HubSpot through its CLI and MCP server from our design system; checked with test sends, with Litmus available for rendering. First send Nov 2026.
- Built an AI production pipeline for sales case studies: writers deliver copy to a spec, an agent fits it into a coded template, and I keep the decisions about what ships.
- Kept AI out of therapy content after its drafts came back fluent but factually wrong; people write it and AI helps with structure and editing.
- Designed a behavioral engagement system with reminders across push, SMS, and email that lifted adherence to 38% average and 61% at top clinics, against a sub-30% benchmark.
- Led the rebuild of a 20-year-old platform (under 6 months to launch), then designed Tinnitus Pro 0-to-1 in under 4 months, shaped in working sessions with audiologists.
- Built the design system from scratch: several hundred components across mobile and desktop, token-driven. Hearing Technology Innovator Award three years running, 2024 to 2026.

Tools: Figma, Adobe Suite, Linear, Claude Code, ChatGPT

### Product Design Manager

*Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform*

- Led and mentored a 5-person team of product designers, researchers, and content designers supporting one of the largest email marketing platforms in the world, running critique and structured feedback.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

### Head of User Experience · Senior UX Designer · UX Designer

*SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation*

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Designed the Visual Workflow Builder, turning automation rules buried in forms into a readable decision tree, rolled out beside the legacy builder with opt-in and a sunset date.
- Ran design critique before holding formal authority, then managed and hired designers; brought in an intern who now leads growth design at Noom.
- Directed end-to-end product design across platform features that competed directly with, and in most cases outperformed, HubSpot.
- Established story mapping, structured user testing, and design review processes that made ambiguous, data-rich workflow problems tractable.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

### UX Consultant, Freelance

*Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS*

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

### UI/UX Expert

*University of Florida, College of Education · Aug 2012 – Dec 2014*

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

### Internet Services Director

*Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL*

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

## Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
