Summary

Player-coach design leader with 14 years of product design experience and about five years building and managing a distributed, largely asynchronous design team. For the last two years I've led design for FDA Class II software that older patients use at home and audiologists in nearly 1,500 clinics prescribe: the patient app, the provider portal, print and sales materials, and the business processes around them. I run research and formal usability studies, build design systems, and stay hands-on.

Core Strengths

- Building a design function: hiring, standards, critique, review rhythm, and growth plans
- Player-coach leadership: modeling the work while developing designers
- Patients at home and the clinicians who care for them: unsupervised use, older adults, low technology confidence
- Breadth across surfaces: mobile app, web portal, print collateral, and sales materials
- Service and business-process design: enrollment inside a clinic visit, billing models, sales enablement systems
- Regulated medical software: FDA Class II, HIPAA, GDPR
- Research and formal usability studies with user testing
- Design systems and a coherent design language across surfaces
- Tools: Figma, Adobe Creative Suite, Claude Code, Linear. Front end: React, Next.js, TypeScript

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · Health AI Platform / FDA Class II

- Lead design for Lace Pro, FDA Class II software that patients use at home and audiologists in nearly 1,500 clinics prescribe: a patient app on iOS, Android, and desktop plus a provider portal. Sole designer until June 2025; now working alongside a second product designer.
- Designed for unsupervised home use by older adults: phone-number login with no password, daily training cut from 20 to 15 minutes, and engagement that lifted adherence to 38% average and 61% at top clinics, against a sub-30% benchmark.
- Designed enrollment as a service flow inside a standard clinic visit: provider entry, SMS, in-room install.
- Designed how the business runs: three billing models tested in the provider portal until clinic-wide licensing took cost out of enrollment, plus a clinic ROI calculator for sales.
- Own print collateral, sales case studies, and partner materials alongside the product; built a code-based system that produces on-brand case studies from structured content.
- Built the design system from scratch: several hundred components across mobile and desktop, token-driven for theming and accessibility.
- Designed Tinnitus Pro 0-to-1 in under 4 months through audiologist interviews and working prototypes iterated with clinicians. Hearing Technology Innovator Award three years running, 2024 to 2026.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Managed a 5-person distributed team of product designers, researchers, and content designers on one of the largest email marketing platforms in the world, owning feedback, career growth, and performance.
- Took over a completely new team after a post-acquisition reorg and kept 1:1s, critique, and team time steady so the team had stability while the org changed.
- Guided the team through in-product upsell flows and designed against daily active use as a core metric.
- Partnered with product and engineering on roadmap strategy, using research and experimentation to shape direction.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Grew from UX Designer to Head of UX; became a formal manager in 2019 and hired directly to grow the team, then carried it intact through the Constant Contact acquisition.
- Brought in an intern with no product experience, paired her with a product manager, and grew her to owning a net-new product that extended the design system; she now leads growth design at Noom.
- Kept a senior-ready designer engaged when headcount wasn't available by giving her ownership of the design system; she stayed through the acquisition.
- Designed the Visual Workflow Builder for marketing automation and rolled it out beside the legacy builder: opt-in, a sunset date, and support-assisted migration.
- Established story mapping, formal usability studies with user testing, and design review processes for complex, data-rich workflows.

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform for educator peer collaboration, owning UX strategy and front-end development, and ran formal usability studies with user testing.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
