Summary

Lead product designer with 14 years of product design experience in regulated healthtech and enterprise B2B SaaS. I own end-to-end design for an FDA Class II platform used in nearly 1,500 clinics, serving patients, clinicians, and the clinics that pay for it, and before that led UX at SharpSpring and managed design at Constant Contact. I design complex workflows across multiple personas, work directly with users, measure outcomes, and use AI daily to speed up discovery and prototyping. Portfolio: drumartinshead.com/for/ccc.

Core Strengths

- End-to-end workflow design for multiple personas in regulated, data-heavy products
- Systems thinking across an ecosystem: users, payers, business models, and constraints outside the software
- Measurable outcomes: defining success metrics and iterating against adherence, time on task, and clinical results
- Direct user and customer research: interviews, concept testing, and iterating working prototypes with users
- Workshop facilitation: story mapping, structured user testing, and design reviews
- Presenting and defending design decisions to cross-functional partners and executives
- AI-accelerated workflow: Claude Code for discovery and functional prototypes, with clear judgment on AI's limits
- Regulated product design: FDA Class II, HIPAA, GDPR; accessibility for older users
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · Health AI Platform / FDA Class II

- Lead design for an FDA Class II therapeutic used in nearly 1,500 audiology clinics: a patient app on iOS, Android, and desktop plus a provider portal, serving patients, audiologists, and paying clinics. Sole designer until June 2025; now alongside a second product designer.
- Cut daily patient training from 20 to 15 minutes by removing interaction points and stops; adherence runs 38% average and 61% at top clinics, against a sub-30% benchmark.
- Tested three billing models in the provider portal, diagnosing failures that lived outside the interface (the patient's invoice, and a free trial that made a clinical recommendation look optional). Clinic-wide licensing took cost out of enrollment.
- Designed patient enrollment as a workflow inside a standard clinic visit: provider entry, SMS, in-room install, and password-free login for an older population.
- Designed Tinnitus Pro 0-to-1 in under 4 months from competitive research, audiologist interviews, and working prototypes iterated with clinicians. First outcomes look: 40% of patients with bothersome tinnitus reached clinically meaningful improvement.
- Designed the experience around production AI: an adaptive engine that adjusts lessons invisibly as patients train, and a HIPAA and GDPR compliant voice-cloning consent flow.
- Use AI daily to accelerate work: built the first working version of the clinic ROI calculator in code with Claude Code, and set a process where people write therapy content and AI handles structure and editing after AI drafts proved factually unreliable.
- Built the design system from scratch, variable-driven for theming and accessibility. Hearing Technology Innovator Award three years running, 2024 to 2026.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led a 5-person team of product designers, researchers, and content designers supporting one of the largest email marketing platforms in the world, staying hands-on through critique and structured feedback.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Designed the Visual Workflow Builder, turning form-based automation rules into a readable decision tree, and rolled it out side by side with the legacy builder: opt-in, a sunset date, and support-assisted migration.
- Established story mapping, structured user testing, and design review processes that made ambiguous, data-rich workflow problems tractable.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.
- Mentored designers while carrying my own product areas end-to-end in a lean, agile environment.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
