Summary

Product design manager with 14 years of product design experience and about five years managing distributed teams of designers, researchers, and content designers. I designed communication tools for small businesses at SharpSpring and Constant Contact, and for the last two years have led design for an FDA Class II product used in nearly 1,500 audiology practices, built around real clinic workflows. I partner with product and engineering on strategy, grow designers into thought partners, and still prototype in code with Claude Code.

Core Strengths

- Design team leadership: hiring, coaching, performance management, and retention for distributed teams
- Growing designers to work upstream: championing user needs and shaping priorities, not reacting to requirements
- Strategic partnership with product, engineering, and data on roadmaps, business models, and metrics
- Healthcare practice workflows: enrollment inside a standard visit, clinician and patient experiences
- Communication and engagement tools for small businesses: marketing automation, CRM, email, SMS and push
- Design systems that scale: variable-driven components built for theming and accessibility
- Design reviews for craft and strategic direction; story mapping and structured user testing
- Research that validates opportunities: interviews, usability testing, working prototypes with users
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · Health AI Platform / FDA Class II

- Lead design for Lace Pro, an FDA Class II product used in nearly 1,500 audiology practices: a patient app on iOS, Android, and desktop plus a provider portal. Sole designer until June 2025; now working alongside a second product designer.
- Designed enrollment to fit inside a standard clinic visit: the provider enters a name and phone number, the patient gets a text and installs the app in the room, and login is phone number only, with no password.
- Partnered with product and engineering through three billing models in the provider portal, diagnosing failures outside the interface; clinic-wide licensing took cost out of enrollment.
- Designed patient engagement across push, SMS, and email, timed to drop-off points, with a progress map and streaks; adherence runs 38% average and 61% at top clinics, against a sub-30% benchmark.
- Cut daily training from 20 to 15 minutes by removing interaction points and stops in the flow.
- Built the design system from scratch: several hundred components across mobile and desktop, variable-driven for theming and accessibility. Lace Pro and Tinnitus Pro share one app and one login.
- Designed Tinnitus Pro 0-to-1 in under 4 months from audiologist interviews and working prototypes iterated with clinicians. Hearing Technology Innovator Award three years running, 2024 to 2026.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Managed a 5-person distributed team of product designers, researchers, and content designers on one of the largest email marketing platforms in the world, owning feedback, career growth, and performance.
- Took over a completely new team after a post-acquisition reorg and kept 1:1s, critique, and team time steady so the team had stability while the org changed.
- Guided the team through in-product upsell flows and designed against daily active use as a core metric.
- Partnered with product and engineering on roadmap strategy, using research and experimentation to shape direction.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Grew from UX Designer to Head of UX; became a formal manager in 2019 and hired directly to grow the team, then carried it intact through the Constant Contact acquisition.
- Brought in an intern with no product experience, paired her with a product manager, and grew her to owning a net-new product that extended the design system; she now leads growth design at Noom.
- Kept a senior-ready designer engaged when headcount wasn't available by giving her ownership of the design system; she stayed through the acquisition.
- Designed the Visual Workflow Builder for marketing automation and rolled it out beside the legacy builder: opt-in, a sunset date, and support-assisted migration.
- Established story mapping, structured user testing, and design review processes for complex, data-rich workflows.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
