Summary

Staff-level product designer with 14 years of product design experience. For the last two years I've led design for Lace Pro, a native iOS, Android, and desktop app used in nearly 1,500 audiology clinics, with a second product in the same app on one shared design system. I design the parts of mobile that keep people coming back: notifications, streaks, progress, and in-the-moment encouragement. Before that, nearly ten years on marketing tools for small businesses at SharpSpring and Constant Contact, where I led critique before I had the title. I prototype in code with Claude Code.

Core Strengths

- Native mobile product design for iOS and Android, plus desktop, as one coherent product
- Engagement and coaching on mobile: push, SMS, and email timed to drop-off points, streaks, progress maps, encouragement
- Everyday usability for diverse users: older adults, low tech confidence, passwordless phone-number login
- Motion with restraint: celebration moments built into existing transitions so they cost the user no time
- Design systems that scale across products: variable-driven components for theming and accessibility
- Influence without authority: critique, design review, and raising the bar across designers and teams
- AI in daily practice: prototyping in code with Claude Code, an agent-driven content pipeline, reviewing AI output
- Marketing tools for small businesses and agencies: automation, CRM, and email
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Lead design for Lace Pro, a native patient app on iOS and Android plus desktop and a provider portal, used in nearly 1,500 audiology clinics. Sole designer until June 2025; now working alongside a second product designer.
- Built the design system from scratch: several hundred components across mobile and desktop, variable-driven for theming and accessibility. Lace Pro and Tinnitus Pro share one app and one login.
- Designed the engagement layer: streaks, a training map, a leaderboard, and push, SMS, and email nudges timed to drop-off points. Adherence runs 38% average and 61% at top clinics, against a sub-30% benchmark.
- Rewrote AI avatar encouragement that sounded robotic at launch into a dozen variants; reviewed and corrected AI-generated lesson content for tone and accuracy.
- Designed celebration moments inside the answer reveal; won over stakeholders who called the first version childish with toned-down animation and competitive research.
- Cut daily training from 20 to 15 minutes by removing interaction points and stops; passwordless phone-number login for an older audience.
- Designed Tinnitus Pro 0-to-1 in under 4 months from audiologist interviews and working prototypes. Hearing Technology Innovator Award three years running, 2024 to 2026.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and mentored a 5-person product design team supporting one of the largest email marketing platforms in the world, coaching through critique and structured feedback while staying hands-on.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Ran design critique without formal authority, then grew from UX Designer to Head of UX; designed operational workflows (CRM, pipelines, automation builders, reporting) for agencies and small businesses.
- Designed the Visual Workflow Builder, turning form-based automation rules into a readable decision tree; rolled out side by side with opt-in and a sunset date.
- Championed a unified design system linking visual components to coded equivalents.
- Established story mapping, structured user testing, and design review processes.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
