Summary

Design leader with 14 years of product design experience who still makes things. I managed a team of designers, researchers, and content designers through an acquisition and a reorg, grew designers from intern to lead, and set the bar through critique. For the last two and a half years I've been hands-on again: the only designer until June 2025 on a platform used in nearly 1,500 clinics, prototyping in React and TypeScript with Claude Code. I use AI every day and step in when its output isn't good enough.

Core Strengths

- Player-coach leadership: hiring, critique, and growing designers while carrying my own product areas
- Craft at the detail level: flows, states, motion, and copy, with content designers on the team
- Leading a team through change: an acquisition, a reorg, and a new set of reports
- AI in daily work with human judgment leading: agent pipelines, and knowing when to step in
- Technically complex systems made readable: automation builders, CRM pipelines, adaptive engines
- Prototyping in front-end code: React, Next.js, TypeScript, Tailwind CSS, Node.js
- Design systems linking visual components to coded equivalents, built to flex without forking
- Partnering with engineering and product from the start of a project
- Tools: Figma, Claude Code, Linear, terminal and CLI workflows

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Lead design for Lace Pro, used in nearly 1,500 audiology clinics, across iOS, Android, desktop, and a provider portal. Sole designer until June 2025; now alongside a second product designer.
- Designed Tinnitus Pro 0-to-1 in under 4 months, from first prototype to states and copy; it shares one app and one login with Lace Pro.
- Led the rebuild of a 20-year-old platform into a modern cross-platform product in under 6 months to launch.
- Designed the experience around an adaptive engine that silently tunes each patient's next lesson and difficulty, and an AI voice-cloning system with invite, disclosure, preview, and revocation.
- Built an AI production pipeline: writers deliver copy to a spec and an agent fits it into a coded template; refined the design and rules until the output held up.
- Kept AI out of therapy content after its drafts came back fluent but factually wrong; people write it and AI helps with structure and editing.
- Built the design system from scratch: several hundred components across mobile and desktop, token-driven. Hearing Technology Innovator Award three years running, 2024 to 2026.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Managed a 5-person team of product designers, researchers, and content designers supporting one of the largest email marketing platforms in the world; took over a new set of reports after a post-acquisition reorg.
- Carried my SharpSpring team intact through the acquisition, holding 1:1s, critique, and team rituals steady while the org changed.

- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Ran design critique before holding formal authority, then became people manager in 2019 and hired to grow the team.
- Brought in a graphic design intern and grew her into a product designer and design system contributor; she now leads growth design at Noom.
- Designed the Visual Workflow Builder, turning automation rules buried in forms into a readable decision tree, rolled out beside the legacy builder with opt-in and a sunset date.
- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
