Summary

Hands-on design leader with 14 years of product design experience in B2B SaaS and AI products. At SharpSpring I grew the design team by hiring directly and became Head of UX; at Constant Contact I managed designers, researchers, and content designers through an acquisition and a reorg. Today I'm Lead Product Designer at Neurotone AI and still in the file every day. AI does production work in my process: an agent-driven case study pipeline packaged as a reusable Claude project, and prototypes built in code with Claude Code.

Core Strengths

- Player-coach leadership: hiring for slope, coaching designers as individuals, retention through an acquisition, hard performance calls
- AI in daily production: agent-driven document pipeline packaged as a Claude project; Claude Code prototyping; fast diverge-and-converge concept work
- Automation that acts on a user's behalf: workflow builders, silent adaptive systems, and consent and revocation for AI that uses personal data
- Raising the craft bar: critique that gives reasoning, not verdicts; killing work that misses the bar, including AI output
- B2B SaaS at scale: marketing automation, CRM, email marketing, and data-dense operational workflows
- Prioritization and alignment across product, engineering, sales, and executive stakeholders
- Design systems: variable-driven component libraries, with system ownership used as a growth path for designers
- Front-end engineering: React, Next.js, TypeScript, Tailwind CSS, Node.js, Puppeteer. Tools: Figma, Claude Code, Linear

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Hands-on design lead across product, brand, and sales enablement for Lace Pro, an AI platform in nearly 1,500 clinics. Sole designer until June 2025; now working alongside a second product designer.
- Led the 0-to-1 rebuild of a 20-year-old legacy platform into a cross-platform product, strategy through launch in under 6 months.
- Built an AI production pipeline for sales case studies: writers deliver copy to a spec, an agent fits it into a coded template, and Node.js and Puppeteer render print-ready 6-page PDFs. Proven on 7 of about 20 planned studies; packaged as a reusable Claude project.
- Designed the experience around an adaptive engine that silently selects each patient's next lesson and difficulty, and a HIPAA and GDPR compliant AI voice-cloning flow: invite, disclosure, preview, and revocation.
- Cut AI work that missed the bar: generated lesson content was fluent but often wrong, so people write it and AI edits.
- Built the first working clinic ROI calculator in code; shipped a partner certification app in Next.js.
- Cut daily training from 20 to 15 minutes by removing interaction points and stops; adherence runs 38% average and 61% at top clinics, against a sub-30% benchmark.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and developed a 5-person product design team supporting one of the largest email marketing platforms in the world, owning hiring input, feedback, career growth, and performance.
- Rebuilt and scaled design operations across a combined team following an acquisition integration, establishing shared standards and process without slowing delivery.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team, accelerating delivery and improving execution quality.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Grew the design team from 2 to 4 as principal designer and people manager, hiring and coaching while owning my own product areas.
- Developed an intern from graphic design into a full-time product designer through PM pairing, design system contribution, and a net-new product; she now leads growth design at Noom.
- Retained a designer ready for senior before headcount existed by giving her ownership of the design system; she stayed through the Constant Contact acquisition.
- Designed the Visual Workflow Builder, turning form-based automation rules into a readable decision tree; rolled out side by side with opt-in and a sunset date.
- Directed end-to-end product design across a data-dense platform that competed directly with, and in most cases outperformed, HubSpot.
- Established story mapping, structured user testing, and design review processes for ambiguous, data-heavy workflow problems.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
