Summary

Player-coach design leader with 14 years of product design experience in B2B SaaS and metric-driven products, including about five years building and managing a team of designers, researchers, and content designers. I set one design vision across connected products, build the processes and design systems that let a small team move fast, and develop designers into leaders. I still do hands-on design and prototype in code. Based in Gainesville, FL; remote with regular travel to New York.

Core Strengths

- Player-coach leadership of a small team: hiring, mentoring, growth paths, and performance
- Developing design leaders: an intern I hired now leads growth design at Noom
- One design vision across connected products: patient app, provider portal, and two products in one app and login
- Design process and systems that scale: critique format, review rhythm, hiring loop, token-driven design system
- Metric-driven design: adherence, time on task, daily active use, and business-model experiments
- Partnership with Product, Engineering, Marketing, Sales, and Customer Success, including sales tools I designed
- Onboarding and enrollment flows that fit real-world moments, for users with low technology confidence
- User research: interviews, usability testing, and working prototypes iterated with customers
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Lead design across connected products used by nearly 1,500 audiology clinics: a patient app on iOS, Android, and desktop, a provider portal, and two products (Lace Pro and Tinnitus Pro) sharing one app and one login. Sole designer until June 2025; now working alongside a second product designer.
- Designed enrollment to fit inside a standard clinic visit: the provider enters a name and phone number, the patient gets a text and installs the app in the room, and login is phone number only, with no password.
- Partnered with product through three billing models in the provider portal, diagnosing failures that lived outside the interface; clinic-wide licensing took cost out of enrollment.
- Designed and built the first working version of a clinic ROI calculator that sales reps preconfigure for each prospect, and an AI-assisted system that produces on-brand sales case studies from structured content.
- Designed engagement that lifted adherence to 38% average and 61% at top clinics, against a sub-30% benchmark; cut daily training from 20 to 15 minutes.
- Built the design system from scratch: several hundred components across mobile and desktop, token-driven for theming and accessibility. Brand and product are one job here: identity, marketing site, print, and product.
- Rebuilt a 20-year-old platform in under 6 months and designed Tinnitus Pro 0-to-1 in under 4. Hearing Technology Innovator Award three years running, 2024 to 2026.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Managed a 5-person distributed team of product designers, researchers, and content designers on one of the largest email marketing platforms in the world, owning feedback, career growth, and performance.
- Took over a completely new team after a post-acquisition reorg and kept 1:1s, critique, and team time steady so the team had stability while the org changed.
- Designed against daily active use as a core metric and guided the team through in-product upsell flows.
- Partnered with product and engineering leadership on roadmap strategy, using research and experimentation to shape direction.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Grew from UX Designer to Head of UX; became a formal manager in 2019 and hired directly to build the team, then carried it intact through the Constant Contact acquisition.
- Wrote down the team's design standard: critique format, review rhythm, and hiring loop, and held it through the acquisition.
- Brought in an intern with no product experience, paired her with a product manager, and grew her to owning a net-new product that extended the design system; she now leads growth design at Noom.
- Designed the Visual Workflow Builder for marketing automation and rolled it out beside the legacy builder: opt-in, a sunset date, and support-assisted migration.
- Directed product design for a CRM and marketing automation platform used by thousands of agencies and small businesses.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
