Summary

Principal-level product designer with 14 years of product design experience, focused on personalization and outcomes. I lead design for a consumer app on iOS, Android, and desktop whose adaptive engine personalizes every session, and earlier designed segmentation and dynamic content builders for a marketing automation platform. I own the outcome after launch, build in code when it's fastest, and create AI workflows that let non-designers contribute.

Core Strengths

- Personalization: adaptive per-user sequencing, segment builders, and dynamic content by segment
- Outcome ownership: designing against adherence, time on task, and engagement; Pendo, PostHog, Clarity
- Consumer craft on native mobile and web: motion, celebration moments, accessibility
- AI-native building: working prototypes and production interfaces in Claude Code, React, Next.js
- Design democratization: AI workflows that let writers and teammates produce on-brand work
- Design systems: variable-driven component libraries for theming and accessibility
- Generative and evaluative research: discovery interviews, formal usability studies, prototype testing
- Mentorship and critique: coaching designers through critique, pairing, and shared standards
- Front end: React, Next.js, TypeScript, Tailwind CSS. Tools: Figma, Figma Make, Claude Code, Linear

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Lead design for Lace Pro, a consumer training app on iOS, Android, and desktop prescribed through over 1,500 clinics. Sole designer until June 2025; now alongside a second product designer.
- Designed the experience around an adaptive engine that personalizes every session, silently choosing each user's next lesson and difficulty from their performance.
- Designed an engagement system (training map, streaks, reminders timed to drop-off points, celebration moments built into the answer reveal) that lifted adherence to our training to 38% average and 61% at top clinics, against a sub-30% benchmark.
- Cut daily training from 20 to 15 minutes by removing interaction points and stops in the flow.
- Built the first working ROI calculator in code with Claude from the CEO's spec, iterated with him and sales, and handed it to a developer for production.
- Built an AI production workflow for sales case studies: writers deliver copy to a spec and an agent fits it into a coded template, with rules packaged in a Claude project teammates can run.
- Built a design system from scratch: several hundred components across mobile and desktop, variable-driven for theming and accessibility. Designed Tinnitus Pro 0-to-1 in under 4 months.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and mentored a 5-person team of product designers, researchers, and content designers supporting one of the largest email marketing platforms in the world, running critique and structured feedback.
- Designed against daily active usage as a tracked metric; guided the team through in-product upsell flows.

- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Designed the contact segment builder (lists built from criteria) and the dynamic email builder (content shown by segment).
- Ran formal usability studies and used Pendo to examine traffic and user paths by segment.
- Grew the design team from 2 to 4 as principal designer and manager; brought in an intern who now leads growth design at Noom.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
