Summary

Lead product designer with 14 years of product design experience in data-rich B2B SaaS and AI products. I design dense workflows that help professionals find what matters and act with confidence, generalize existing platforms to new workflows without fragmenting them, and design how AI shows up so people stay in control. Startup owner by habit: sole designer at a 30-person AI company until June 2025, prototyping in React and TypeScript, with about five years of mentoring and managing designers.

Core Strengths

- Data-dense B2B workflows: CRM, pipelines, automation builders, reporting, clinical enrollment
- Generalizing an existing platform to new products and workflows: one app and login for two products, live migrations
- AI in front of professionals: consent and control, invisible versus explicit AI, and guarding against fluent but wrong output
- Scalable interaction patterns and design systems: token-driven components built with engineering (shadcn/ui, Radix)
- Information hierarchy, interaction, and layout for complex, regulated products
- Ambiguous problems to clear direction with product, sales, and customer success
- Rapid prototyping with AI tools and code: Claude Code, React, Next.js, TypeScript
- Critique, mentorship, and shared standards; about five years managing designers
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Lead design for Lace Pro, an AI-powered FDA Class II product used in nearly 1,500 audiology clinics, across a provider portal and a patient app on iOS, Android, and desktop. Sole designer at a 30-person company until June 2025; now alongside a second product designer.
- Generalized the platform for a second product: Tinnitus Pro shares one app and one login with Lace Pro, and each patient sees only the products they've bought.
- Rebuilt a 20-year-old platform into Lace Pro in under 6 months; designed Tinnitus Pro 0-to-1 in under 4 months from audiologist interviews and working prototypes.
- Designed AI voice cloning with disclosure, preview, consent, and revocation under HIPAA and GDPR, so the person stays in control; designed the adaptive engine's experience to work invisibly.
- Kept AI out of therapy content after its drafts came back fluent but factually wrong; people write it and AI helps with structure and editing.
- Built the design system from scratch: several hundred components across mobile and desktop, token-driven so new surfaces stay consistent.
- Partnered with product and sales through three billing models and built the first working version of a clinic ROI calculator in code. Adherence runs 38% average and 61% at top clinics, against a sub-30% benchmark.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and mentored a 5-person team of product designers, researchers, and content designers on one of the largest email marketing platforms in the world, staying hands-on through critique and structured feedback.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Designed the Visual Workflow Builder, turning form-based automation logic into a readable decision tree, and generalized the experience to existing customers by running it beside the legacy builder: opt-in, a sunset date, and support-assisted migration.
- Established story mapping, structured user testing, and design review processes that made ambiguous, data-rich workflow problems tractable.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.
- Mentored designers while carrying my own product areas end-to-end in a lean, agile environment.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
