Summary

Player-coach product design leader with 14 years of product design experience and about five years managing a distributed team of designers, researchers, and content designers. I've designed the B2B tools small businesses use to talk to their customers, at SharpSpring and Constant Contact, and for the last two years I've led hands-on design for an AI product used in nearly 1,500 clinics. I bring a tested point of view on trustworthy AI, build design systems, and prototype in code.

Core Strengths

- Player-coach leadership: hiring, critique, design reviews, and developing designers while staying in the work
- Trustworthy AI experiences: when AI should be invisible, when it needs consent and control, and what happens when it's wrong
- Turning design judgment into standards, principles, and design systems others can apply
- Evolving the design operating model with AI: code prototyping and agent-driven production work
- Complex B2B made simple: marketing automation, CRM, email, and clinical workflows
- Words as part of the product: managed content designers alongside product designers
- Remote leadership: distributed teams, written decisions, and clear feedback
- Cohesion between brand and product: brand and product are one job at Neurotone
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Lead hands-on design for Lace Pro, an AI-powered FDA Class II product used in nearly 1,500 audiology clinics: a patient app on iOS, Android, and desktop plus a provider portal. Sole designer until June 2025; now working alongside a second product designer.
- Designed the experience around AI in production: an adaptive engine that works invisibly, and voice cloning with disclosure, preview, consent, and revocation under HIPAA and GDPR.
- Fixed AI avatar encouragement that sounded robotic and repetitive at launch by building a dozen variants; kept AI out of therapy content after its drafts proved factually unreliable.
- Built an AI production workflow for about 20 sales case studies: writers deliver copy to a spec and an agent fits it into a coded template I designed; 7 done.
- Built the design system from scratch: several hundred components across mobile and desktop, token-driven for theming and accessibility.
- Own brand and product together: identity, marketing site, print, sales materials, and the product.
- Adherence runs 38% average and 61% at top clinics, against a sub-30% benchmark. Hearing Technology Innovator Award three years running, 2024 to 2026.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Managed a 5-person distributed team of product designers, researchers, and content designers on one of the largest email marketing platforms in the world, owning feedback, career growth, and performance.

- Took over a completely new team after a post-acquisition reorg and kept 1:1s, critique, and team time steady so the team had stability while the org changed.
- Guided the team through in-product upsell flows and designed against daily active use as a core metric.
- Partnered with product and engineering on roadmap strategy, using research and experimentation to shape direction.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Grew from UX Designer to Head of UX; became a formal manager in 2019 and hired directly to grow the team, then carried it intact through the Constant Contact acquisition.
- Brought in an intern with no product experience, paired her with a product manager, and grew her to owning a net-new product that extended the design system; she now leads growth design at Noom.
- Kept a senior-ready designer engaged when headcount wasn't available by giving her ownership of the design system; she stayed through the acquisition.
- Designed the Visual Workflow Builder for marketing automation and rolled it out beside the legacy builder: opt-in, a sunset date, and support-assisted migration.
- Established story mapping, structured user testing, and design review processes for complex, data-rich workflows.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
