Summary

Lead product designer with 14 years of product design experience across habit-forming consumer design and workflow SaaS. I lead design for a product used in nearly 1,500 clinics with three audiences: a patient app people come back to every day, a portal clinicians use mid-visit, and the value view clinics need to keep prescribing. I took it from a legacy rebuild to a mature product as the only designer, built its design system from scratch, and prototype in code with Claude Code.

Core Strengths

- Habit-forming design: progress maps, streaks, and reminders timed to drop-off points, with measured adherence
- Workflow SaaS for professionals: CRM, automation builders, and clinical workflows that fit a real appointment
- One platform, several roles: consumer-grade craft for end users and workflow rigor for professionals
- Taking a product from early to mature as the first and only designer
- Design systems built and maintained from scratch: token-driven, accessible components
- AI that coaches instead of replacing the work: knowing where AI output shouldn't ship
- Research in the field: interviews and working prototypes iterated with the people who use them
- Educators and learning products: built a platform for primary school teachers early in my career
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Lead design for Lace Pro, used in nearly 1,500 audiology clinics, across three audiences: patients on iOS, Android, and desktop, clinicians in a provider portal, and the clinics that pay for it. Sole designer until June 2025; now alongside a second product designer.
- Designed the habit system: a visual training map, streaks, and reminders across push, SMS, and email timed to drop-off points. Adherence runs 38% average and 61% at top clinics, against a sub-30% benchmark.
- Cut daily training from 20 to 15 minutes by removing interaction points and stops in the flow.
- Took Lace Pro from a rebuild of a 20-year-old platform (under 6 months to launch) to a mature product, then designed Tinnitus Pro 0-to-1 in under 4 months; both share one app and one login.
- Designed enrollment to fit inside a standard clinic visit, with password-free login for older patients.
- Kept AI out of therapy content after its drafts came back fluent but factually wrong; people write it and AI helps with structure and editing.
- Built the design system from scratch: several hundred components across mobile and desktop, token-driven. Hearing Technology Innovator Award three years running, 2024 to 2026.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and mentored a 5-person team of product designers, researchers, and content designers supporting one of the largest email marketing platforms in the world, coaching through critique and structured feedback.

- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Designed the Visual Workflow Builder, turning automation rules buried in forms into a readable decision tree, rolled out beside the legacy builder with opt-in and a sunset date.
- Established story mapping, structured user testing, and design review processes that made ambiguous, data-rich workflow problems tractable.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.
- Mentored designers while carrying my own product areas end-to-end in a lean, agile environment.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform for primary school educators to collaborate and share skills, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
