Summary

Product design leader with 14 years of product design experience across healthcare and enterprise B2B SaaS. I own end-to-end design for an FDA Class II platform used in nearly 1,500 clinics, and before that was Head of UX at SharpSpring and managed designers, researchers, and content designers at Constant Contact. I frame ambiguous problems across user needs, business models, and technical constraints, sequence the work, and measure outcomes over time. I use Claude Code daily and prototype in React and TypeScript.

Core Strengths

- Problem framing in ambiguous spaces: connecting user needs, business models, technical constraints, and integration points
- End-to-end experience and service design: prototypes, workflow diagrams, technical flows, information architecture
- Measuring impact over time: defining success metrics and iterating against outcomes such as adherence and time on task
- AI-integrated daily workflow: Claude Code as primary environment, with clear judgment on what AI can own and what it can't
- Cross-functional facilitation: story mapping, critique, and design reviews with product, engineering, clinical, and executive partners
- Design leadership: managing designers, researchers, and content designers, including microcopy and content strategy
- Accessibility and inclusive design for older adults and sensory impairment; formal WCAG training
- Regulated healthcare product design: FDA Class II, HIPAA, GDPR
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · Health AI Platform / FDA Class II

- Lead design for an FDA Class II therapeutic used in nearly 1,500 audiology clinics: a patient app on iOS, Android, and desktop plus a provider portal. Sole designer until June 2025, working independently across product, engineering, clinical, and executive partners; now alongside a second product designer.
- Framed the provider business model across three billing experiments, diagnosing that a free trial failed at positioning (it made a clinical recommendation look optional) rather than at the interface. Clinic-wide licensing took cost out of enrollment.
- Designed patient enrollment as a service flow inside a standard clinic visit: provider entry, SMS, in-room install, and password-free login for an older population.
- Sequenced the 0-to-1 rebuild of a 20-year-old platform: flows, then a design system of several hundred variable-driven components, then flows built from those components. Launched in under 6 months.
- Cut daily patient training from 20 to 15 minutes by removing interaction points and stops. A behavioral system (progress map, streaks, notifications across push, SMS, and email) lifted adherence to 38% average and 61% at top clinics, against a sub-30% benchmark.
- Designed the product experience around production AI: an adaptive training engine that works invisibly as patients train, and a HIPAA and GDPR compliant voice-cloning feature with disclosure, preview, consent, and revocation.

- Prototype in code with Claude Code: built the first working version of the clinic ROI calculator and a partner certification platform end to end in Next.js and TypeScript.
- Designed Tinnitus Pro 0-to-1 in under 4 months from competitive research, clinical literature, and audiologist interviews. Hearing Technology Innovator Award three years running, 2024 to 2026.

Tools: Figma, Adobe Suite, Linear, Claude Code, ChatGPT

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led a 5-person team of product designers, researchers, and content designers supporting one of the largest email marketing platforms in the world, staying hands-on through critique and structured feedback.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Directed end-to-end product design across platform features that competed directly with, and in most cases outperformed, HubSpot.
- Established story mapping, structured user testing, and design review processes that made ambiguous, data-rich workflow problems tractable.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.
- Mentored designers while carrying my own product areas end-to-end in a lean, agile environment.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
