Summary

Product design leader with 14 years of product design experience in B2B SaaS and AI products. I led UX for SharpSpring's CRM and marketing automation platform, managed designers, researchers, and content designers at Constant Contact, and led the rebuild of a 20-year-old platform into an AI-powered product now used in nearly 1,500 clinics. I design the experience around production AI, from invisible adaptation to explicit consent, migrate mature products without breaking customer habits, and build working prototypes in code with Claude Code.

Core Strengths

- AI experience design in production: deciding when AI should act invisibly and when it needs disclosure, consent, and revocation
- Restructuring mature products under live customers: side-by-side rollout, opt-in, deprecation plans, sunset dates, assisted migration
- Dense operational software for non-technical professionals: CRM, pipelines, automation builders, clinical enrollment
- Working prototypes as the default artifact: Claude Code daily, React, Next.js, TypeScript
- Internal tooling that lets non-designers produce on-brand work from structured content
- Design systems built from scratch: variable-driven components with accessibility built in
- Design team leadership: hiring, coaching, critique, and career growth for designers, researchers, and content designers
- Peer partnership with product, engineering, clinical, and executive leadership
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Led the 0-to-1 rebuild of a 20-year-old therapy platform into Lace Pro, an AI-powered FDA Class II product used in nearly 1,500 audiology clinics, strategy through launch in under 6 months. Sole designer until June 2025; now alongside a second product designer.
- Designed the experience around an adaptive training engine that picks each patient's next lesson and difficulty on its own, made invisible with easy openers and an ease-out at session end.
- Fixed AI avatar encouragement that sounded robotic and repetitive at launch by building a dozen variants, so praise felt human rather than scripted.
- Designed a HIPAA and GDPR compliant AI voice-cloning flow: invite, disclosure, preview, and revocation.
- Built the design system from scratch: several hundred components across mobile and desktop, with color, type, and sizing on variables so accessibility lives in the components.
- Built internal tooling in Node.js and Puppeteer that turns structured content files into on-brand sales case studies; the full library regenerates in under 30 seconds with no design involvement.
- Prototype in code with Claude Code: built the first working version of the clinic ROI calculator and a partner certification platform end to end in Next.js and TypeScript.
- Designed a behavioral system that lifted adherence to 38% average and 61% at top clinics, against a sub-30% benchmark.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and developed a 5-person team of product designers, researchers, and content designers supporting one of the largest email marketing platforms in the world, owning hiring input, feedback, career growth, and performance.
- Rebuilt and scaled design operations across a combined team following an acquisition integration, establishing shared standards and process without slowing delivery.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team, accelerating delivery and improving execution quality.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Grew the design team from 2 to 4 as principal designer and people manager, hiring and coaching while owning my own product areas.
- Designed the Visual Workflow Builder, replacing a form-based automation builder with a readable decision tree, and rolled it out side by side: opt-in for existing accounts, new accounts straight to the new builder, then a deprecation plan, sunset date, and support-assisted migration.
- Directed end-to-end product design across a data-dense platform that competed directly with, and in most cases outperformed, HubSpot.
- Established story mapping, structured user testing, and design review processes for ambiguous, data-heavy workflow problems.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
