Summary

Staff-level product designer with 14 years of product design experience, designing services as well as screens. I lead design for a health platform used in nearly 1,500 clinics with three audiences: mostly older patients at home, clinicians mid-visit, and the clinics that pay for it. I own outcomes through launch and iteration, ground decisions in research and product analytics, and work AI-native: prototypes in Claude Code and Figma Make used to settle decisions with engineering and leadership.

Core Strengths

- Service design: enrollment, billing, and communications designed together with the product
- Designing for older adults: password-free login, in-room setup, accessibility for varied health literacy
- Multi-audience journeys: end users, professionals in the workflow, and the business that operates it
- Multi-channel communications: push, SMS, and email timed to drop-off points; partner email programs
- AI-native prototyping: Claude Code and Figma Make prototypes as decision-making artifacts
- Evidence-led strategy: formal usability studies, interviews, Pendo, Hotjar, Clarity, Looker
- Shared patterns and prompts: design systems from scratch; AI workflows packaged for teammates
- Regulated and trust-sensitive products: FDA Class II, HIPAA, GDPR
- Front end: React, Next.js, TypeScript, Tailwind CSS. Tools: Figma, Figma Make, Claude Code, Linear

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · Health AI Platform / FDA Class II

- Lead design for Lace Pro, used in nearly 1,500 audiology clinics, across a patient app on iOS, Android, and desktop, a provider portal, and the clinics that pay for it. Sole designer until June 2025; now alongside a second product designer.
- Designed enrollment to fit inside a standard clinic visit: the provider enters a name and phone number and the patient installs the app in the room, with password-free login for older patients.
- Designed a behavioral engagement system (training map, streaks, reminders across push, SMS, and email timed to drop-off points) that lifted adherence to our training to 38% average and 61% at top clinics, against a sub-30% benchmark.
- Worked across three billing models; diagnosed why two failed outside the interface (the patient invoice, and a free trial that made a clinical recommendation look optional) and landed clinic-wide licensing.
- Cut daily training from 20 to 15 minutes by removing interaction points and stops in the flow.
- Designed Tinnitus Pro 0-to-1 in under 4 months, iterating working prototypes with audiologists; 40% of bothersome-tinnitus patients reached clinically meaningful improvement in the first look.
- Built an AI production pipeline for sales case studies with rules packaged in a Claude project; kept AI out of therapy content after drafts came back fluent but factually wrong.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and mentored a 5-person team of product designers, researchers, and content designers supporting one of the largest email marketing platforms in the world, running critique and structured feedback.

- Designed against daily active usage as a tracked metric, combining research and product data to choose which problems to solve.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Ran formal usability studies with user testing, and established story mapping and design review processes for data-rich workflow problems.
- Designed the Visual Workflow Builder, rolled out beside the legacy builder with opt-in, a sunset date, and support-assisted migration.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.
- Mentored designers while carrying my own product areas end-to-end in a lean, agile environment.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
