Summary

Senior product designer with 14 years of product design experience in regulated health software and complex B2B SaaS. I lead design for FDA Class II software used in nearly 1,500 audiology clinics, working as much as researcher, problem framer, and workflow mapper as UI designer. I take friction out of multi-user clinical workflows and measure the result, and I prototype with AI and code so engineering sees working behavior.

Core Strengths

- Discovery research: interviews, clinical literature, competitive research, working prototypes iterated with clinicians
- Problem framing and workflow mapping across multi-user systems: patients, clinicians, paying clinics
- Measured friction reduction: time on task, enrollment steps, adherence
- Regulated medical software: FDA Class II, HIPAA, GDPR
- Information architecture, interaction, and visual design for complex, data-rich products and reporting
- Design systems: token-driven components built with engineering for theming and accessibility
- Rapid prototyping with AI and code: Claude Code, React, Next.js, TypeScript
- Storytelling and alignment with product, engineering, and clinical partners
- Tools: Figma, Claude Code, Linear. Front end: React, Next.js, TypeScript, Tailwind CSS, Node.js

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · Health AI Platform / FDA Class II

- Lead design for Lace Pro, FDA Class II software used in nearly 1,500 audiology clinics: a patient app on iOS, Android, and desktop and a provider portal clinicians use mid-visit. Sole designer until June 2025; now alongside a second product designer.
- Designed Tinnitus Pro 0-to-1 in under 4 months with no product to reference: competitive research, clinical literature, and audiologist interviews, then working prototypes iterated with clinicians. First outcomes look: 40% of patients with bothersome tinnitus reached clinically meaningful improvement.
- Designed enrollment to fit inside a standard clinic visit: the provider enters a name and phone number, the patient gets a text and installs the app in the room, and login needs no password.
- Cut daily training from 20 to 15 minutes by removing interaction points and stops; adherence runs 38% average and 61% at top clinics, against a sub-30% benchmark.
- Framed and tested three billing models in the provider portal, mapping failures that lived outside the interface; clinic-wide licensing took cost out of enrollment.
- Built the design system from scratch: several hundred components across mobile and desktop, token-driven for theming and accessibility. Lace Pro and Tinnitus Pro share one app and one login.
- Designed AI voice cloning with disclosure, preview, consent, and revocation under HIPAA and GDPR. Hearing Technology Innovator Award three years running, 2024 to 2026.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and mentored a 5-person team of product designers, researchers, and content designers on one of the largest email marketing platforms in the world, staying hands-on through critique and structured feedback.

- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Directed end-to-end product design across platform features that competed directly with, and in most cases outperformed, HubSpot.
- Established story mapping, structured user testing, and design review processes that made ambiguous, data-rich workflow problems tractable.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.
- Mentored designers while carrying my own product areas end-to-end in a lean, agile environment.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
