Summary

Product designer with 14 years of product design experience on complex, data-heavy B2B software, and the first and only designer on a platform used in nearly 1,500 clinics until June 2025. I own research, interaction, visual design, and the design system myself, prototype in code daily with Claude Code, and have designed where software acts on its own, where it asks a person, and where AI stays out. I've also managed designers, researchers, and content designers, so I can help build the function as it grows.

Core Strengths

- Early and sole designer: setting standards and making calls without a playbook
- Human-agent loops: automation rules, silent adaptive engines, consent before AI acts
- Many parties, one product: end users, professionals mid-workflow, and the business paying for it
- Dense data made clear: CRM pipelines, reporting, automation builders, provider portals
- Prototyping in code: React, Next.js, TypeScript with Claude Code; prototypes tested with customers
- Discovery with domain experts: interviews, site shadowing, prototypes iterated as they use them
- Design systems and principles built from scratch
- Hiring and leading designers, researchers, and content designers
- Tools: Figma, Claude Code, Linear, HubSpot CLI and MCP

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Sole designer until June 2025 on Lace Pro, used in nearly 1,500 audiology clinics: research, interaction, visual design, and the design system across iOS, Android, desktop, and a provider portal; now alongside a second product designer.
- Designed for several parties at once: patients training at home, audiologists mid-visit, and the clinics that pay. Tested three billing models and landed on one that lets providers prescribe unlimited access without patient billing concerns during the exam.
- Designed the experience around an adaptive engine that silently tunes each patient's next lesson, and an AI voice-cloning system that acts only after invite, disclosure, preview, with revocation.
- Kept AI out of therapy content after its drafts came back fluent but factually wrong; people write it and AI helps with structure and editing.
- Built the first version of the ROI calculator sales reps use with clinics; setting up partner emails that Claude builds in HubSpot through its CLI and MCP server.
- Designed Tinnitus Pro 0-to-1 in under 4 months, interviewing audiologists and iterating working prototypes with them as they used them.
- Built the design system from scratch: several hundred components, token-driven. Adherence to our training runs 38% average and 61% at top clinics, against a sub-30% benchmark.

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and mentored a 5-person product design team supporting one of the largest email marketing platforms in the world, coaching through critique and structured feedback while staying hands-on.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Designed the Visual Workflow Builder, turning automation rules that ran unattended, buried in forms, into a readable decision tree people could check before letting it run.
- Directed end-to-end product design across platform features that competed directly with, and in most cases outperformed, HubSpot.
- Established story mapping, structured user testing, and design review processes that made ambiguous, data-rich workflow problems tractable.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.
- Mentored designers while carrying my own product areas end-to-end in a lean, agile environment.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
