Summary

Senior UX designer with 14 years of product design experience making complex software clear and trustworthy: permissioned, collaborative workflows on a marketing automation platform agencies ran for their clients, and AI experiences with consent, review, and approval built in on an FDA Class II platform. I own research through post-release learning, translate brand into accessible product, and prototype in code.

Core Strengths

- Complex workflow simplification: multi-step automation builders, migrations from legacy tools
- Permissions and collaboration: role-based access, client accounts, shared editing with version history
- Trustworthy AI experiences: approval steps, human review of generated content, consent and revocation
- Brand into product: identity, site, and app as one system; tokens for color, type, and spacing
- Accessibility: WCAG AAA contrast across every theme; Google web.dev Learn Accessibility
- Practical research: formal usability studies, interviews, observed workflows, prototype testing
- AI-assisted design with validation: prototyping in Claude Code and Figma Make; randomized data, no full names
- Outcome measures: task time, adherence, adoption; Pendo, PostHog, Clarity, Hotjar
- Front end: React, Next.js, TypeScript, Tailwind CSS. Tools: Figma, Figma Make, Claude Code, Linear

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Lead design for Lace Pro, an FDA Class II AI platform in nearly 1,500 audiology clinics: a patient app on iOS, Android, and desktop and a provider portal, under HIPAA and GDPR. Sole designer until June 2025; now alongside a second product designer.
- Designed AI voice cloning as a permission flow: invite, plain disclosure, preview of the result, and revocation at any time.
- Changed the provider billing model on provider evidence and landed on one that lets providers prescribe unlimited access without patient billing concerns during the exam.
- Designed the experience around production AI: an adaptive engine that silently tunes each patient's next lesson, and AI-generated lesson content I reviewed and corrected for tone and accuracy.
- Built AI production workflows: writers deliver case study copy to a spec and an agent fits it into a coded template, with rules packaged in a Claude project teammates can run; built the first ROI calculator in code with Claude.
- Cut daily training from 20 to 15 minutes; lifted adherence to our training to 38% average and 61% at top clinics, against a sub-30% benchmark.
- Built the design system from scratch: several hundred components across mobile and desktop, variable-driven for per-clinic theming; worked the variables until every theme met WCAG AAA contrast.

Tools: Figma, Adobe Suite, Linear, Claude Code, ChatGPT

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and mentored a 5-person team of product designers, researchers, and content designers supporting one of the largest email marketing platforms in the world, running critique and structured feedback.

- Led the team that designed an AI flow that builds a customer's email by collecting their branding from online sources, with the customer approving content before use.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.
- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Designed for multi-tenant agencies running client accounts with role-based permissions and white labeling.
- Designed collaborative email editing for multiple team members, with version history and change logs.
- Designed the Visual Workflow Builder for multi-step automation, rolled out beside the legacy builder with opt-in, a sunset date, and support-assisted migration.
- Ran formal usability studies with user testing; grew the design team from 2 to 4 as principal designer and manager.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
