Summary

Product designer with 14 years of product design experience on complex B2B software, owning workflows end to end from discovery through shipped experience. I design the details that make technical products trustworthy: states, edge cases, errors, and permissions. I've built design systems from scratch, migrated live customers onto a new builder without forcing them, and tied my work to measured outcomes. I prototype in React and TypeScript with Claude Code and run usability tests when the cost of being wrong is high.

Core Strengths

- Complex workflows owned end to end: CRM, automation builders, pipelines, clinical portals
- Trust details: states, edge cases, errors, permissions, consent, and revocation
- Design systems: built from scratch and contributed to; migrating live surfaces without breaking habits
- Scoping v1s that ship fast, then iterating on usage and feedback
- Outcome-driven design: task time, adherence, and activation-style metrics
- AI prototyping: coded prototypes with Claude Code; agent workflows through CLI and MCP
- Lightweight and formal usability testing; prototypes iterated with real users
- Front-end engineering: React, Next.js, TypeScript, Tailwind CSS, Node.js
- Tools: Figma, Claude Code, Linear

Experience

Lead Product Designer

Neurotone AI (Lace AI Pro & Tinnitus Pro) · Apr 2024 – Present · SaaS / AI Platform

- Lead design for Lace Pro, used in nearly 1,500 audiology clinics, across iOS, Android, desktop, and a provider portal. Sole designer until June 2025; now alongside a second product designer.
- Designed the invite, disclosure, preview, and revocation flow for an AI voice-cloning feature, so the people involved stay in control of their voice.
- Built the design system from scratch: several hundred components across mobile and desktop, token-driven for theming and accessibility.
- Cut daily training from 20 to 15 minutes by removing interaction points; adherence runs 38% average and 61% at top clinics, against a sub-30% benchmark.
- Led the rebuild of a 20-year-old platform to launch in under 6 months, then designed Tinnitus Pro 0-to-1 in under 4 months, iterating working prototypes with audiologists.
- Designed enrollment to fit inside a clinic visit, with password-free login for older patients.
- Setting up monthly partner emails that Claude builds in HubSpot through its CLI and MCP server from our design system.

Tools: Figma, Adobe Suite, Linear, Claude Code, ChatGPT

Product Design Manager

Constant Contact · Oct 2021 – Apr 2024 · Enterprise SaaS / Email Marketing Platform

- Led and mentored a 5-person product design team supporting one of the largest email marketing platforms in the world, coaching through critique and structured feedback while staying hands-on.
- Directed end-to-end UX strategy across roadmap initiatives, aligning product, engineering, and business objectives.

- Facilitated iterative co-design, weekly reviews, and async collaboration across a distributed team.
- Influenced product direction through user research, experimentation, and cross-functional partnership with senior stakeholders.

Head of User Experience · Senior UX Designer · UX Designer

SharpSpring, Inc. · Dec 2014 – Oct 2021 · B2B SaaS / Marketing Automation

- Principal designer on a 4-person UX team, designing the operational workflows (CRM, pipelines, automation builders, reporting) that agencies and SMBs ran their businesses on.
- Designed the Visual Workflow Builder, turning automation rules buried in forms into a readable decision tree; rolled out beside the legacy builder with opt-in for existing accounts, new accounts started in it, then a sunset date with support-assisted migration.
- Directed end-to-end product design across platform features that competed directly with, and in most cases outperformed, HubSpot.
- Established story mapping, structured user testing, and design review processes that made ambiguous, data-rich workflow problems tractable.
- Championed a unified design system linking visual components to coded equivalents, improving scalability and development velocity.
- Mentored designers while carrying my own product areas end-to-end in a lean, agile environment.

Tools: Figma, Zeplin, Jira, Monday.com, Hotjar, Pendo, Storybook

UX Consultant, Freelance

Fyllo Compliance Cloud · Feb 2021 – Sep 2021 · B2B Compliance SaaS

- Delivered a UX audit, structured component inventory, and scalable design system components for a B2B compliance platform operating under strict regulatory constraints.

UI/UX Expert

University of Florida, College of Education · Aug 2012 – Dec 2014

- Designed and built a 0-to-1 web platform supporting educator peer collaboration, owning UX strategy and front-end development.

Internet Services Director

Group Five + Associates · Aug 2009 – Aug 2012 · Agency, Gainesville, FL

- Agency work across multiple client accounts and industries, spanning brand identity, web design, and print, with the context-switching that multi-client environments demand.

Education & Certification

Bachelor of Fine Arts · Millersville University, Millersville, PA

SharpSpring Platinum Partner Certification

Google web.dev Learn Accessibility (WCAG, ARIA, inclusive design) · 2026
